SUMMARY

Fullstack web developer leveraging a media arts and music technology background to build a more intuitive user experience on the web. Recently earned a certificate in full stack development from The Coding Bootcamp at UT Austin with study focus in JavaScript, CSS, Node.js, SQL, React.js, and responsive web design.

Known as a creative problem solver and team player curious about all things. I practice a passion in integrating technologies to best engage my audience for an impactful and enriching user experience. I'm excited to leverage these skills as part of a fast-paced, quality-driven team to build better experiences.

SKILLS React, Node.js, Javascript, HTML, SQL, CSS, GitHub, Git

PROJECTS

Tnkring World of Izzy Ramirez (CSS, HTML)

[live](#) | [github](#)

This is a mock portfolio for Izzy Ramirez's programming endeavors. The intent was to incorporate multiple elements of CSS & HTML seamlessly

- Used flexboxes, pseudo classes, and media queries to develop a mobile first responsive design.
- Introduced various media types within the webpage including images, gifs, pdfs, email refs, tel refs, and external links with social media icons.
- Set the creative and artistic direction of the webpage keeping in mind user interaction and experience for both desktop and mobile.

Tnkring Refactor Project (CSS, HTML)

[live](#) | [github](#)

This is a refactoring project with intent to bring the webpage to meet accessibility standards.

- Refactored code to follow semantic HTML structure.
- Contributed to code by checking that all links are functioning.
- Added alt attributes to all images to ensure the webpage meets accessibility standards.
- Consolidated and commented in Style.css for ease of use and semantic structure.
